The full story

It all began when I was **6 years** old. I had the pleasure to join my aunt's wedding party and that night I was fascinated by one specific guy: **the DJ**. From that moment on I knew it already: I wanted to become a DJ!

Years to follow, I was doing my first gigs already. The audience: **my parents** at home! My equipment: a cassette deck with cd-player included. Back then, most of my savings were being spent on new released cd's, and so my collection of music began to grow.

At the age of 15, my best friend, my cousin and I decided to join forces and we started a **dj trio** together. So we went playing on all kinds of birthday parties, weddings and other stuff like that. Off course, all the money we earned was used to buy us more equipment and cd's.

Eventually I started to enter the club scene and after **winning a dj contest** I became resident of one of the most famous night clubs in Antwerp. At that time I was 21 years old and my main genre of music was Dance, House & Pop.

Nevertheless, as I became older, I first started to discover and to love R&B music and even later also all kinds of Latin music. This love became bigger and today I am a well known **Urban - Latin master**. Therefore, it is my intention to surround you with the most awesome Urban tracks around and to warm you up with the hottest Latin tunes on the planet!

Yours truly,

El Pablo
